Profile

Aspiring Software Engineer with hands-on experience in the MERN stack (MongoDB, Express.js, React, Node.js) and modern tools like Next.js and Tailwind CSS. Passionate about building scalable, responsive web applications with clean architecture and intuitive user experiences. Eager to contribute to real-world projects, collaborate in agile teams, and grow into a well-rounded developer.

Professional Experience

Full Stack Developer (Remote)

Nov 2024 – present

SoftCox

Trincomalee, Sri Lanka

- Built and deployed a real-time church management system (LWMC MEDIA) 📄 with client and admin portals using MERN stack, Redux, and Tailwind CSS.
- Developed the frontend for Grace Inventory Management System using React, Tailwind CSS, and ShadCN UI components for a modern, responsive design.
- Followed agile methodologies to deliver production ready features within sprint deadlines.

Education

BSc (Hons) in Software Engineering

Aug 2022 – present

Sabaragamuwa University of Sri Lanka

G.C.E. Advanced Level (Physical Science Stream)

2018 – 2020

Zahira College, Colombo

Technical Skills

Programming Languages

JavaScript, TypeScript, Java, C, HTML, CSS

Web Development

HTML, CSS, React.js, Next.js, Tailwind CSS, ShadCN UI, Redux Toolkit

Backend Development & Databases

Node.js, Express.js, MongoDB, MySQL, Firebase

Version Control

Git, GitHub

Tools & Technologies

Postman, Firebase, PayPal Integration, Vercel, AWS, Cloudinary

Soft Skills

Teamwork, Leadership, Agile Mindset, Strong Communication

Projects

Ajji-Store

Apr 2025 – May 2025

Full-Stack E-Commerce Web Application for Mobile Store

Developed a full-featured e-commerce app using the MERN stack, Tailwind CSS, and Redux Toolkit. Integrated PayPal for secure payments and built an admin dashboard for managing products and orders. Deployed on Vercel with optimized performance.

Live 📄 [GitHub](#) 📄

Ajjiyoo

Mar 2025 – Apr 2025

E-Commerce Web Application

Built a responsive e-commerce platform for a dress shop using the MERN stack, Tailwind CSS, and Redux Toolkit. Combined admin and client features in a single interface with user and product management, and integrated PayPal for secure payment processing.

Live [↗](#) **GitHub** [↗](#)

DT-Medical Centre

Feb 2025 – Apr 2025

Doctor Appointment Booking Platform

Built a responsive doctor appointment platform using the MERN stack, Tailwind CSS, and React-Toastify. Implemented real-time booking, category-based filtering, and user authentication with the React useContext API.

Live [↗](#) **GitHub** [↗](#)

DT-Medical Centre Admin Dashboard

Feb 2025 – Apr 2025

Medical Centre Admin & Doctor Management System

Built an admin system using the MERN stack, Tailwind CSS, and JWT authentication. Allowed admins to manage doctors, patients, and bookings with role-based access and a user-friendly dashboard.

Live [↗](#) **GitHub** [↗](#)

Servicio

Oct 2024 – Dec 2024

Service Marketplace Platform

Developed a dual-portal platform using the MERN stack, Tailwind CSS, and JWT authentication, enabling seamless interaction between users and service providers. Implemented media-rich provider profiles, category based search, a favorite/save feature, and real-time messaging for in-platform communication.

Certificates

Innovate with Ballerina Coding Challenge - 2024

Problem-solving using the Ballerina programming language, organized by WSO2 to promote innovation in cloud-native application development.

Code Quest Finalist - 2024

Software Engineering competition organized by the IEEE Student Branch of Sabaragamuwa University of Sri Lanka.
